JULY NEWSLETTER 1998

JUNE ACTIVITIES REVIEW

There have been two tree planting sessions over the past month which has seen 1500 trees planted in the flats of Billys Creek. On the 21st June we planted 960 trees of various sorts (Ed said that they were Gum trees, Wattles and Tea trees though). An excellent session was had that day with 27 people turning up to help, it was good to see so many people there. Thank you very much to all who helped out as we are now close to being back on schedule again with the tree planting. On the 5th July five of us turned up for the extra activity and managed to plant 540 trees (Manna, Blue and Swamp gum, Blackwood and Silver wattle). This session was a full on no nonsense plant, plant, plant and plant session from 1000 am till 300pm. Wendy was praying for rain to come and soak the 960 trees planted in the early session as the ground was very dry. Well some rain did come and there are a few farmers in East Gippsland who would like to talk to her (something about not looking their way when praying for rain and she does could she ask for a little less than 11 inches of it).
